Introduction to Critical Thinking

When: 09 November 2022 from 0800-1700

Where: Building 104, Camp Murray, WA

This course is designed to introduce criminal analysts to the Analytic Virtues and Vices and six different Structured Analytic Techniques or processes. These techniques include: Analysis of Competing Hypotheses; Key Assumptions Check; the CARVER Matrix; Red Hat analysis; Red Team analysis; and Structured Brainstorming.

These six techniques will improve the ability of criminal analysts to analyze information and produce evidence in a complete and accurate manner. These structured techniques externalize the analytic reasoning process and this makes it easier for analysts to describe their reasoning process to others; to work in analytic teams; and to give briefs or write reports. The majority of this course will be spent working through different exercises using these techniques. The course is 8 hours long and there are no pre-requisites.

To register:

- **Visit Western Regional Counterdrug Training Center's website at www.WRCTC.org**
- **Click on "Attend Training"**
- **Scroll to find the training that you would like to register for and click on **Apply For Training****
